Contributor template

The template that follows is for contributions of case studies to the ***Guidelines on innovative learning space case study***

Instructions on writing up the case study

Case studies should be examples of good practices and must be well documented, evidence based and demonstrate success or progress related to implementing measure that enhance learning spaces.

Case studies must provide a sufficient level of detail so that the reader can understand what was done, by whom and potentially be inspired to replicate a similar programme or intervention.

Please, follow the next structure to present your own case study.

Oana

Magda

Gianina

Context

(Choose one): Day Care / Kindergarten / Primary school

Age of children: *please specifiy the target age*

Contributor's name	
Name of the submitting organization	If the case study is submitted by more than one organization, please indicate **all** organizations.
Contact person at the submitting organization	If the case study is submitted by more than one organization, please indicate only **one** main contact person.
	Address:
	E-mail:
	Phone number:
Title of your contribution	
Typology of learning spaces	*Please, choose the most relevant category:* Community spaces / External spaces / Family Rooms / Indoor spaces of classrooms / Inner common spaces/ Institutional spaces / Online learning space / Outdoor learning space / Working areas in thematic projects
Development domain	*Choose the most relevant domain:* Language and Communication domain; Science field; Human and Society Domain; Aesthetic and Creative Domain and Psychomotricity domain
Area of focus	*example: flexible timetable; independent learning, project based learning etc.*
Terms, acronyms and abbreviations	List of all the key concepts, acronyms and abbreviations used in the case study

Description of the case study (max. 1500 words)	**Aim and objectives of the intervention project:** **Location (country & city):** **Background and context** How did you come up with the innovative idea? How was the intervention project developed? Explain briefly the process and who was involved, highlight the participation of service users, if the case. *Please add the most relevant photo of the "before and after"the intervention on learning spaces* **Main achievements** What where the main achievements of the intervention project (quantitative or/and qualitative)? **Key factors** What where the key factors that facilitated the success of the intervention project? **List of useful equipments/resources needed** **Challenges** **Categoria of improvements** In which ways could the intervention project have been improved (lessons learned, crucial aspects for replication etc.)?
Characteristics of the innovative spaces for active learning	a. Physical environment (design, light, surfaces, organisation, aesthetics etc.) b. Furniture c. Working corners/ Interest Areas

	d. Online/Virtual corner/learning space e. Materials: • Smart toys/devices • Sensorial materials • Other *Please add the most relevant photos of the new learning spaces design (1 up to 5)* ** Please, do not present here the sensorial garden (it is allocated a different chapter for it)*
Benefits	1. **Teachers** 2. **Children** 3. **Parents, if it is the case**
Discussions/ Reflection (aprox. 500 words)	Assessments of the pedagogical approach, ergonomics of the new created space, furniture and materials for learning spaces
Future directions/ Next steps	
Success stories and/or quotes (150 words)	If you have a quote or statement from an evaluation or user satisfaction survey and the permission to use these quotes, they may be added here to illustrate the success of your case study.
What are the three key messages from this case study	1. 2. 3.
Citations (full references)	What sources of information do you have to substantiate the above, please list:
